

RMD Weather Report

29 August 2025

SOUTH AFRICA

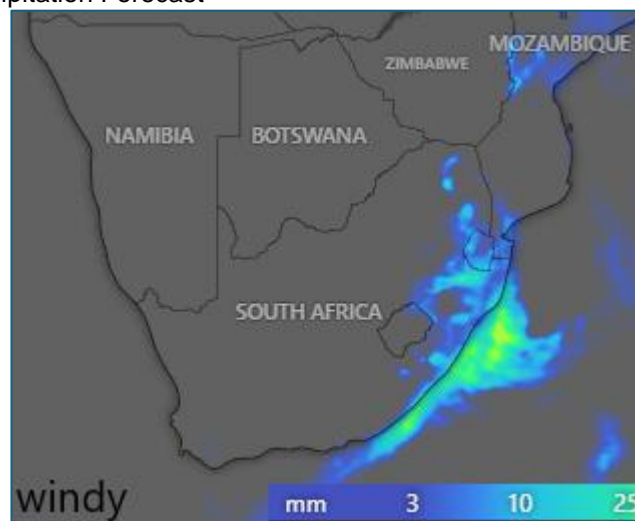

Accumulative 7 Day Precipitation Forecast

MAINLY DRY CONDITIONS

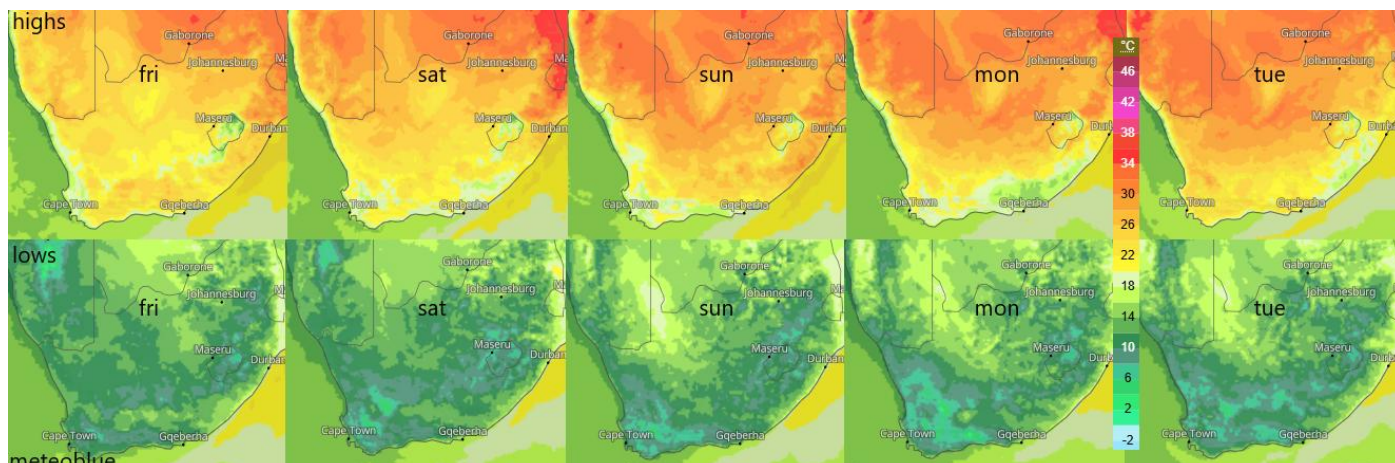

Mainly dry conditions are in store inland through the weekend and most of next week, some coastal activities this weekend.

The 7-to-14-day period is seemingly wetter in the eastern interior with dry conditions in most of the interior.

Day temperatures are heating up with early morning conditions mild to warm the weekend and next week, image below.

7-to-14-day Rain Forecast

5-Day High and Low Temperature Forecast

NORTH AMERICA

Southern Midwest: Dry conditions with cooler air through next week. Great Lakes showers Thursday, but dryness may reduce yields.

Southern Plains: Stalled front brings showers through Thursday, more next week. Cool, wet weather hampers crop finishing.

Northern Plains: Near-normal temperatures with showers Friday. Rain aids corn and soybeans, not wheat. Cold front next week.

Delta: Heavy rain possible in southern Missouri, Arkansas Thursday-Friday. Poor conditions may cut corn, soybean, cotton yields.

Canadian Prairies: Warm, dry weather through weekend aids harvest. Cooler air next week, no widespread frost.

SOUTH AMERICA

Southern Brazil: Recent rain aids wheat; warmer temperatures this weekend. Spotty showers next week, mainly in Rio Grande do Sul.

OTHER

Argentina: Warmer weather follows frosts; widespread rain this weekend boosts soil moisture for spring planting.

Europe: Showers through next week benefit corn and prep soils for winter wheat. West cooler, east warmer.

Southwest Russia: Dry, hot conditions persist; spotty showers next week. More rain needed for corn, sunflowers, and wheat planting.
